Detailed Description

Allowable Subject Matter

Claims 1, 3-9, 11, 12, 14, 25-30 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method for protecting data stored on a storage medium. Each independent claim identifies the uniquely distinct features of "verifying the system data stored in the recordable data area using the stored cryptographic summary and enabling reading and/or recording of user data in dependence on the verifying step".

The closest prior art, Kim (US 6,694,023), discloses a conventional method for protecting digital data stored on a recording medium fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
